1.1 PART NUMBERING

The standard part numbers, sensor ranges and associated ECCNs for the MS-IMU3020 are listed in the table below. All versions of the MS-IMU3020 have an Export Control Classification Number (ECCN) of No License Required (NLR).

Table 1 - Standard part numbers

MODEL NUMBER	PART NUMBER	MAXIMUM RANGES				ECCNs
		ACCEL (g)	RATE (°/s)	MAGNETOMETER (gauss)	PRESSURE SENSOR (mBar)	
MS-IMU3020	MP00062-005	±15	±1920	None	None	NLR
MS-IMU3020P	MP00062-007	±15	±1920	None	1260	NLR
MS-IMU3020M	MP00062-008	±15	±1920	±1.9	None	NLR
MS-IMU3020MP	MP00062-003	±15	±1920	±1.9	1260	NLR

1.2 MS-IMU3020 ACCESSORIES

Accessories available for the MS-IMU3020 include interface cables, a USB data acquisition module (USB-DAQ) and the MS-IMU3020 configuration software. The accessories allow an end user to rapidly connect, configure and collect evaluation data with the MS-IMU3020. The software provides valuable tools used in developing communications with the IMU. The table below provides the accessory part number details.
