Memsense, LLC Announces Distribution Agreement with El-GeV Electronics in Israel

Rapid City, SD – December 03, 2019 - Memsense, LLC, a manufacturer of high-performance inertial measurement units, is pleased to announce that it has entered a strategic distribution partnership with El-GeV Electronics Ltd. El-GeV Electronics Ltd. is dedicated to the sales of professional, electronic components, sub-assemblies and systems to the regional industrial, military and aerospace markets.

“El-GeV’s highly focused representation in Israel and neighboring countries will help to expand our global reach and growth” says David Karlinski, Director of Sales Memsense. “Together we are aligned on a strategic vision of delivering high-performance IMUs for the most demanding of applications.”

“The partnership with a leading American company of MEMs gyros is a big honor for ELGEV and we know that the Israel market is a perfect location for these kinds of products” says Yoel Yogev, CEO of El-GeV Electronics Ltd.

About Memsense, LLC

Memsense, LLC designs and manufactures high-performance inertial measurement units used primarily in tactical and industrial applications. Utilizing innovative sensor algorithms and architectures to achieve best in class price and performance, Memsense has been delivering inertial measurement units since 2001. Memsense is ISO-9001:2015 certified.
